

time	author	text
2020-09-24 12:50:47 UTC	Patricia Martin	Hi!
2020-09-24 12:55:11 UTC	Evan Oxenham	Hi Pat, Don.
2020-09-24 13:00:10 UTC	Dori Drachman	Hi All,
2020-09-24 13:00:20 UTC	Dori Drachman	Dori from Peterborough, NH
2020-09-24 13:00:40 UTC	Evan Oxenham	Hi - Lee Oxenham here - sharing the screen even tho we did buy two tickets.
2020-09-24 13:00:42 UTC	Michael Jasmin	Mike Jasmin from Swanzey and Alstead
2020-09-24 13:00:49 UTC	Kevin O'Brien	Hello from Brattleboro VT
2020-09-24 13:01:08 UTC	Chuck Weed	hi! Excited
2020-09-24 13:01:25 UTC	Joel Huberman	Hello from Peterborough, NH.
2020-09-24 13:01:26 UTC	Marge Shepardson	Hi.
2020-09-24 13:02:51 UTC	Don Kreis	Wow! Lots of familiar names here. Howdy all.
2020-09-24 13:03:02 UTC	carolyn jones	Hi
2020-09-24 13:03:12 UTC	Emily Manns	Good morning!
2020-09-24 13:12:53 UTC	Richard Maynard	Howdy All
2020-09-24 13:14:38 UTC	Joel Huberman	I love the Moby Dick metaphor!
2020-09-24 13:15:41 UTC	Peter Hansel	If it was an electric lawnmower, you wouldn't hear it.
2020-09-24 13:16:13 UTC	Don Kreis	Just don't call me Ishmael.
2020-09-24 13:18:51 UTC	Mary Greene	Wow, April!
2020-09-24 13:19:57 UTC	Patricia Martin	April we are so lucky to have you!!!!
2020-09-24 13:20:11 UTC	Joel Huberman	I like the "pointy edge of the spear" metaphor!
2020-09-24 13:20:15 UTC	Patricia Martin	April, thanks for your leadership!
2020-09-24 13:21:10 UTC	Chuck Weed	thanks April. Spotty silence- now lorenzo
2020-09-24 13:21:58 UTC	April Salas	Thank you for the support! I am the lucky one to have all of you to work alongside!
2020-09-24 13:31:11 UTC	Patricia Martin	Including Keene, NH! Yay!
2020-09-24 13:33:07 UTC	Patricia Martin	https://ilsr.org/local-energy-rules-podcast-homepage/
2020-09-24 13:36:56 UTC	John Farrell	Here's the report, if folks are interested: https://ilsr.org/report-community-choice-energy/
2020-09-24 13:39:32 UTC	Patricia Martin	https://www.academia.edu/12419512/A_Future_History_of_Tomorrows_Energy_Network
2020-09-24 13:42:16 UTC	Richard Maynard	I've Produced several Shows on Community Power. If any care to watch, share, like or subscribe. https://www.youtube.com/watch?v=mOx0dvBDreM&t=1s
2020-09-24 13:42:28 UTC	Richard Maynard	https://www.youtube.com/watch?v=_2d5jYyHVao
2020-09-24 13:44:25 UTC	Richard Maynard	Hmm... must be that Climate change that's not happening.
2020-09-24 13:55:08 UTC	Richard Maynard	Keene installed the First Net Zero Water Treatment. You too can generate Electricity from both Clean & Dirty water systems. https://www.youtube.com/watch?v=kpCm8yETD8Y&t=1s
2020-09-24 14:00:16 UTC	Patricia Martin	April Salas did the solar for affordable/senior housing result from donations of panels for each solarize installation?
2020-09-24 14:05:57 UTC	Michele Chalice	Thank you for all of your efforts April.
2020-09-24 14:06:53 UTC	Mary Greene	Can you share how to get in touch about your webinars for other communities interested in learning more and getting started?
2020-09-24 14:08:25 UTC	April Salas	@Mary Greene... here you go! http://www.communitypowernh.org/
2020-09-24 14:10:41 UTC	Joel Huberman	As a retired molecular biologist, I like the DNA metaphor.
2020-09-24 14:10:56 UTC	Patricia Martin	++April! We need the utilities to help us "scale up."

2020-09-24 14:11:20 UTC Richard Maynard This show is about Energy Efficiency and Programs available to NH Citizens and low income programs. Presented by Don Kreis NH Citizen Advocate with Ray Burke NH Legal Aid/NH Legal Assistance. <https://youtu.be/3xYydY3fzgl>

2020-09-24 14:11:31 UTC April Salas Patricia Martin <https://www.hanovernh.org/solarize> Yes! our solar site evaluation help the LISTEN Community Meals program. Installed panels will contribute to solar panels for our senior neighbors on Summer Street.

2020-09-24 14:11:51 UTC Don Kreis My daughter has cystic fibrosis so, even though I was an English major who went to law school I have had to learn a lot about microbiology and genetics.

2020-09-24 14:12:48 UTC Patricia Martin Go D Mo!!!

2020-09-24 14:14:34 UTC Don Kreis Yes indeedy -- I have now been a guest on Rick Maynard's program twice and in each instance we had a robust discussion about utility customer empowerment. Check 'em out for sure!

2020-09-24 14:16:46 UTC Richard Maynard Love having you Don. Be safe and healthy all.

2020-09-24 14:17:00 UTC Don Kreis Love being had!

2020-09-24 14:17:00 UTC Patricia Martin Ann Shedd Mari Brunner wonder if we should have utility participation at some of the ECC meetings?

2020-09-24 14:17:54 UTC Patricia Martin April Salas are the utilities participants in your RF 100% implementation planning?

2020-09-24 14:23:42 UTC John Farrell In Minneapolis, there are 50+ neighborhood organizations that do local programming and we had a lot of the early conversations about clean energy options with those existing organizations.

2020-09-24 14:24:23 UTC Michele Chalice I'm very proud of Keene has a Solar/Wind/Wood Energy System Property Tax Exemptions "Solar and Wind energy system property tax exemptions are now valued at the full value of the system and not capped at \$10,000.<https://ci.keene.nh.us/assessing/solar-wind-wood-energy-system-property-tax-exemptions>

2020-09-24 14:24:47 UTC April Salas That's fantastic John Farrell Have those neighborhood organizations been effective in Minneapolis?

2020-09-24 14:25:41 UTC April Salas That's fantastic @Michele! It's such an important signal to send

2020-09-24 14:27:20 UTC John Farrell It varies based on the capacity of the organization. Several were involved in a utility-city partnership effort to improve energy efficiency outreach to multifamily residents. The lessons learned are being incorporated into utility programming, as well as further discussions about how to improve clean energy access for renters.

2020-09-24 14:28:29 UTC carolyn jones @michelle chalice Thank you for the tax information

2020-09-24 14:28:54 UTC April Salas We are now about to kick off with a City Solarize Accelerator with an RMI/WRI cohort to consider how to automate solar permitting applications, among other things

2020-09-24 14:29:50 UTC Patricia Martin April Salas RMI/WRI?

2020-09-24 14:30:25 UTC John Farrell Rocky Mountain Institute / World Resources Institute

2020-09-24 14:30:31 UTC Patricia Martin Thanks!

2020-09-24 14:31:36 UTC April Salas Thanks, John Farrell Sorry for the jargon Patricia Martin

2020-09-24 14:31:38 UTC April Salas <https://cityrenewables.org/>

2020-09-24 14:31:56 UTC Richard Maynard NH Sierra Club is working towards providing Citizens with a means to become Active and work with other likeminded People. <https://www.sierraclub.org/ready-for-100>

2020-09-24 14:34:06 UTC Richard Maynard On the Macro Level we have: Renew New England Alliance is a new and growing coalition of more than fifty leading grassroots organizations, labor unions, racial justice groups, frontline communities, and environmental advocates. We,Ãve come together to address our region,Ãs overlapping crises: mass unemployment, racial injustice, the coronavirus pandemic, and climate change. <https://renewnewenglandalliance.org/>

2020-09-24 14:35:02 UTC Richard Maynard Regional Energy Hubs provide coordination and support at the regional level so local groups can focus on local work. Each hub has one or more coordinators dedicated to connecting groups within the region, sharing successful strategies and models, organizing workshops and events, and providing local groups with important energy information and updates. There are not enough. We need people to form and become active in these Energy Hubs. <https://www.nhenergy.org/regional-energy-hubs.html>

2020-09-24 14:35:51 UTC April Salas Great list SAMUEL GOLDING

2020-09-24 14:38:08 UTC Joel Huberman Don and April, is there a possibility that the NH PUC may pass rules that will take the teeth out of our Community Aggregation law?

2020-09-24 14:38:12 UTC Emily Manns For April: Was Hanover successful in getting utility demand data from utilities of any kind? Aggregated?

2020-09-24 14:38:49 UTC Peter Hansel If the utilities in NH are successful in protecting their customer data, what effect will that have on our CCA efforts?

2020-09-24 14:39:47 UTC Evan Oxenham In Plainfield we have a closed gravel pit where we could build a RE resource. But there is no 3 phase power nearby. Is there anyway to compel the utilities to bring that in?

2020-09-24 14:41:13 UTC Richard Maynard Is pending Action in regards to Default Payment where Utilities get paid first ?

2020-09-24 14:43:06 UTC Rocco De Santis Are net metering schemes working in NH? Is there enough gain to the distributors to really get behind it?

2020-09-24 14:43:29 UTC Don Kreis Here's a link to info about the book I mentioned -- it's really rich with insight. <https://www.leahstokes.com/book>

2020-09-24 14:43:34 UTC Dori Drachman The Monadnock Sustainability Hub is hosting a series of meetings to help communities pass Community Power in their towns. The next meeting is on Oct. 6 and the topic will be getting baseline data from the utilities.

2020-09-24 14:43:42 UTC April Salas Emily Manns yes we were ultimately successful in obtaining our community data; but it took 6+ months and we had to hire a consultant to assist

2020-09-24 14:43:53 UTC Richard Maynard One of the Most Important Steps is to share information and get as many people and groups actively Promoting Community Power. We need People with Professional Skill sets to Join and become Active in CommunityPowerNH.org. to act as a Resource Hub for individual Energy/Power Groups and Regional Energy Hubs. <http://www.communitypowernh.org/>

2020-09-24 14:44:23 UTC Peter Hansel Thank you everyone.

2020-09-24 14:45:15 UTC Emily Manns Great panel and discussion, thank you!

2020-09-24 14:45:18 UTC April Salas Thank you all!

2020-09-24 14:45:30 UTC Annie Henry As Dori mentioned above, MSH is putting together a series of meetings and supportive information around Community Power. Contact us for more information <https://monadnocksustainabilityhub.org/support/contact-us/>

2020-09-24 14:45:38 UTC Joel Huberman Thanks all!!

2020-09-24 14:45:53 UTC Richard Maynard Thank-you all great presentation.
