| 2020-09-24 17:51:29 UTC | Chuck Weed | hi. Chuck Weed |
| 2020-09-24 17:52:04 UTC | carolyn jones | attendee |
| 2020-09-24 18:01:10 UTC | Mari Brunner | Hi everyone! |
| 2020-09-24 18:02:16 UTC | Dori Drachman | Hello everyone. Dori from Peterborough, NH |
| 2020-09-24 18:02:55 UTC | Joel Huberman | And hello from another Peterborough resident |
| 2020-09-24 18:03:08 UTC | Evan Oxenham | Hi, Evan Oxenham from Plainfield, NH |
| 2020-09-24 18:03:19 UTC | Peter Hansel | Hi from Keene |
| 2020-09-24 18:03:46 UTC | Nick Hunkerstorm | Hello from Lander WY |
| 2020-09-24 18:04:15 UTC | Kasey Cordell | Hi from Denver, Colorado! |
| 2020-09-24 18:04:41 UTC | Amy Andersen (She/Her) | Greetings from Lander, WY! |
| 2020-09-24 18:05:56 UTC | Toner Mitchell | Santa Fe, NM |
| 2020-09-24 18:11:27 UTC | julie davenson | greetings all thanks for attending |
| 2020-09-24 18:16:44 UTC | Jay Kahn | I'm looking for good ideas for NH legislature. Thanks for energizing new ideas. |
| 2020-09-24 18:17:38 UTC | julie davenson | Jay Kahn we need to setup a payment for ecosystem services in NH |
| 2020-09-24 18:24:23 UTC | Tory McCagg | Tory & Carl from Jaffrwey |
| 2020-09-24 18:24:26 UTC | Tory McCagg | Jaffrey |
| 2020-09-24 18:25:19 UTC | Adrienne Krulis | So many great resources and info! Thanks Adam |
| 2020-09-24 18:26:26 UTC | julie davenson | please post questions as we will be taking questions |
| 2020-09-24 18:27:48 UTC | Lisa Sieverts | Thank you, Senator, for your leadership in this area. |
| 2020-09-24 18:28:35 UTC | Patricia Martin | Excited to see that the New England Power Generators Association is supporting carbon pricing and have invited Senator Whitehouse to give a keynote at the upcoming New England Energy Summit! |
| 2020-09-24 18:29:45 UTC | Peter Hansel | How does forestry management contribute to restorative practices? |
| 2020-09-24 18:31:24 UTC | Joel Huberman | Thanks, Senator Whitehouse! |
| 2020-09-24 18:34:40 UTC | Jay Kahn | Good to hear how carbon pricing and sequestration ideas are advancing. Thanks Senator W. |
| 2020-09-24 18:35:04 UTC | Sheldon Whitehouse | thanks everyone for your support and for inviting me -- co-benefits are going to be great too |
| 2020-09-24 18:36:29 UTC | Patricia Martin | Thank you so much, Senator! |
| 2020-09-24 18:36:54 UTC | Patricia Martin | Thanks also for your ideas about Demand Response for gas utilities. One of my favorite new ideas. |
| 2020-09-24 18:36:58 UTC | carolyn jones | Thank you . Good luck with your bill. |
| 2020-09-24 18:40:41 UTC | Richard Mellor | How can we develop accurate metrics of results without compromising farm confidentiality. |
| 2020-09-24 18:41:55 UTC | Joel Huberman | Dr. Paustian, could you give us some more details about the tools needed to measure SOC? |
| 2020-09-24 18:43:57 UTC | Patricia Martin | Julie Davenson do you know if NH passed its Healthy Soils legislation? Would the panelists discuss how that could be a step closer. |
| 2020-09-24 18:44:45 UTC | Patricia Martin | And forestry? |
| 2020-09-24 18:47:32 UTC | Patricia Martin | Julie Davenson getting some feedback from your mic. |
| 2020-09-24 18:57:02 UTC | Susan Richman | What percent of farms are adopting your measures, and how will you reach those who are not? |
| 2020-09-24 18:58:02 UTC | Richard Mellor | If we get to the point of carbon credits going to individual farmers, won't that single out the poorer actors? So that to gain any credit you must forgo anonymity. |
| 2020-09-24 18:59:55 UTC | Peter Hansel | How can local energy and climate committees factor in carbon sequestration into their community's GHG objectives? |
| 2020-09-24 19:00:27 UTC | carolyn jones | What can a backyard gardiner do to sequester carbon since every little bit may help? |
| 2020-09-24 19:00:56 UTC | Joel Huberman | Thanks, Dr. Paustian. That was a good answer, at the level of detail I can understand. |

| | | |
|-------------------------|-----------------|--|
| 2020-09-24 19:01:56 UTC | Adrienne Krulis | carolyn jones Compost! |
| 2020-09-24 19:02:42 UTC | Keith Paustian | Hi Joel - there are highly accurate measurement methods that involve field sampling and laboratory analysis. The challenge is applying those methods broadly - it's very costly. Therefore we want to strategically measure some but combine that with models, remote sensing , crowdsourcing of information from farmers - etc. That more integrated approach makes for a more robust, more cost-effective quantification approach. |
| 2020-09-24 19:09:06 UTC | Peter Hansel | Do you see any systemic changes to farming being brought about by the current pandemic? |
| 2020-09-24 19:09:44 UTC | Patricia Martin | mic |
| 2020-09-24 19:22:19 UTC | Patricia Martin | That was a very interesting point about credits only being allowed for what's not required by regulation! |
| 2020-09-24 19:22:37 UTC | Patricia Martin | Did I understand that correctly? |
| 2020-09-24 19:23:44 UTC | Patricia Martin | Hmmm....could we do something similar to Community Choice Aggregation for farmers? |
| 2020-09-24 19:27:46 UTC | Sarah Ashton | Is there a tool to measure your personal carbon footprint? |
| 2020-09-24 19:28:30 UTC | Patricia Martin | If healthy soils legislation passed, would that disqualify participants from carbon credits because of regulations? |
| 2020-09-24 19:29:49 UTC | Adrienne Krulis | Yes Adam, every little bit helps! Makes me think about: the reason 2-cycle (mixed-gas) boat motors are no longer being produced, in favor of 4-cycle (straight gas) motors, is because more oil was dumped into oceans and waterways each year by recreational-level 2-cycle motors than by industry. Everyone makes a difference! |
| 2020-09-24 19:30:17 UTC | Lou McCall | Greetings from Questa, NM (Hi Toner!) |
| 2020-09-24 19:30:38 UTC | Patricia Martin | Welcome, Lou! |
| 2020-09-24 19:32:30 UTC | Patricia Martin | Sarah Ashton https://www.carbonfootprint.com/calculator.aspx |
| 2020-09-24 19:37:06 UTC | Adrienne Krulis | Can our panelists tie the soil carbon sequestration into the larger picture of ecosystem services? How much of the total picture does soil carbon sequestration account for, or is that even currently quantifiable? |
| 2020-09-24 19:37:33 UTC | Sarah Ashton | Thank you Patricia! |
| 2020-09-24 19:38:03 UTC | Patricia Martin | Did the panelists watch "Kiss the Ground" and what did they think? |
| 2020-09-24 19:38:44 UTC | Patricia Martin | Thank you, Dr. Paustian! That's very helpful. |
| 2020-09-24 19:47:10 UTC | Adrienne Krulis | Thank you both for your comprehensive answer. I'm super interested in how we can show gov't and industry that ecosystem services, soil health, carbon sequestration are money makers- since money is about all they'll listen to! |
| 2020-09-24 19:47:46 UTC | Joel Huberman | Thanks very much, Drs. Chambers and Paustian! And thanks for great moderation, Julie Davenson! A great session! |
| 2020-09-24 19:48:10 UTC | Patricia Martin | Yes! Thank you, Julie!!! |
